## **DETAILED ACTION**

### ***Allowable Subject Matter***

As noted in the Office Action dated September 21, 2004, claims 1 and 3-12 are allowed.

As stated in that Action, Applicant's perfection of foreign priority and the corresponding arguments filed June 9, 2004 are sufficient in overcoming the prior art. Specifically, the prior art fails to teach positioning a laser coaxially within a cylinder of a crankcase, rotating the laser while simultaneously advancing the laser, feeding a powdery material through the laser and directing it to the wall of the cylinder, and deflecting the laser beam to an impact region of the cylinder wall such that the powdery material passes through the laser beam and partially melts, all in combination with the additional laser treatment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
